PROFESSIONAL FORMULAS

What is PectaSol® Metal Detox?

PectaSol® Metal Detox is a clinically researched blend of PectaSol® Modified Citrus Pectin and Algimate® Modified Alginate Complex from kelp. This targeted binding formula helps safely remove toxic metals including lead, mercury, arsenic, radioactive particles, and other environmental pollutants from the circulation and GI tract, and prevent toxin accumulation in organs and tissues.*

- Daily toxin removal *
- Gut and circulatory detox*
- Clinically researched*

Clinically Proven, Safe Heavy Metal Detox

Gentle yet Highly Effective*

PectaSol® Metal Detox binds and removes heavy metals from the body, without removing essential minerals the way other harsh detox agents do. This makes PectaSol® Metal Detox a safe and gentle, yet highly effective binding formula, suitable for anyone seeking support against the accumulation of heavy metals, radioactive ions and other environmental toxins in the body.*

Broad-Spectrum Circulatory and GI Detox*

A synergistic combination of two powerful binding agents, PectaSol® Metal Detox works to remove toxins in the circulation and GI tract, delivering broad-spectrum detox coverage and support. While the PectaSol in the formula targets toxins in the circulatory system, the Algimate complex works in the GI tract to eliminate heavy metals and prevent toxin reabsorption and redistribution—a common problem with other detox programs. PectaSol® Metal Detox's comprehensive binding support also helps prevent detox side effects that can occur during intensive detox programs.*

safe + effective toxin
removal

Clinically Proven*

A 2019 published clinical case study showed that PectaSol® Metal Detox safely removes radioactive uranium from the body. Another 2007 published clinical study showed that PectaSol® Metal Detox removes toxic heavy metals such as lead, mercury and arsenic, without affecting essential minerals. Additional clinical and scientific research demonstrates the ability of PectaSol® Metal Detox ingredients to remove toxic metals, radioactive particles, and other toxins—safely and effectively.*

Versatile and Easy*

PectaSol® Metal Detox makes detox simple and easy. This comprehensive formula can be used alone, or combined with other detoxification protocols for greater benefits and fewer detox side effects.

How to Use

As a dietary supplement, take 1 capsule twice per day, on an empty stomach, or as recommended by your healthcare practitioner.

For in-depth detoxification, PectaSol® Metal Detox is recommended with Detox Complete® for periodic, seasonal or intensive cleansing and toxin removal.*
